**CANADIAN ENERGY SERVICES & TECHNOLOGY CORP. ANNOUNCES INCREASED
CASH DIVIDEND AND EXPANSION INTO NEW BUSINESS LINE**

Canadian Energy Services & Technology Corp. ("CESTC" or the "Corporation")(TSX: CEU) announced today that it will pay a cash dividend of \$0.08 per common share on July 15, 2010 to the shareholders of record at the close of business on June 30, 2010, representing an increased dividend of \$0.02 per common share to the monthly dividend.

CESTC also announced today that it has established the PureChem Services division ("**PureChem**") which will manufacture and sell both drilling fluid products and production chemicals for CESTC. The PureChem manufacturing facility is being constructed in Carlyle, Saskatchewan on existing CESTC lands and production is expected to commence in Q4 2010.

"PureChem Services will allow us to vertically integrate our drilling fluids business to produce proprietary drilling fluid additives that we currently sell into the market, and it will also expand our business into production chemicals in South-east Saskatchewan," said Tom Simons, the President and Chief Executive Officer of Canadian Energy Services & Technology Corp. "We believe this strategic move enhances our competitive position in our core business of drilling fluids, and represents potential growth in a new business line, in a geographic market where we already enjoy considerable customer acceptance through the provision of drilling fluids and the hauling of produced fluids."
